

CHORDEUPHONIC

-Full Stack Web Application

APPROACH:

Chordeuphonic is a website where a user can register and login to the website thereby redirecting to the dashboard. Dashboard contains few popular songs and podcasts. User can also search the podcasts or songs of his/her own interest which redirects to the youtube page. In the dashboard, user can also find the recent search.

TECHNOLOGIES USED:

Firestore database for storing the user's information and recent search.

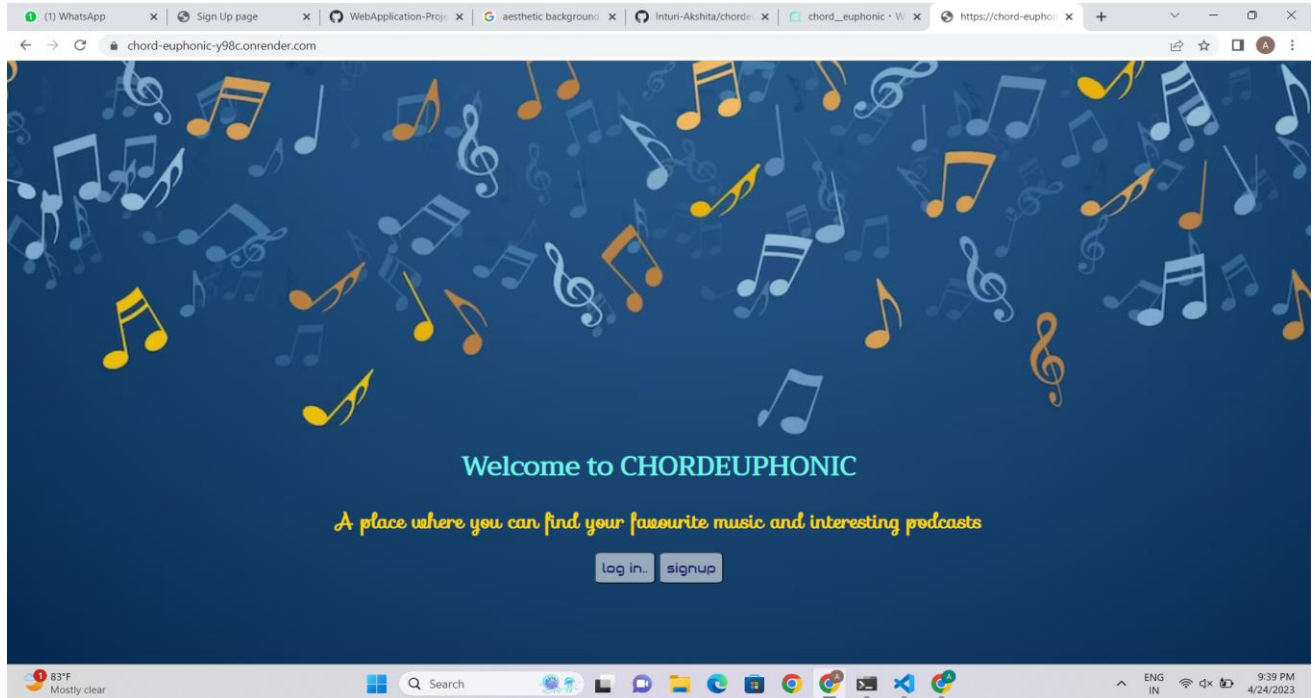

NodeJS

Embedded JavaScript(EJS)

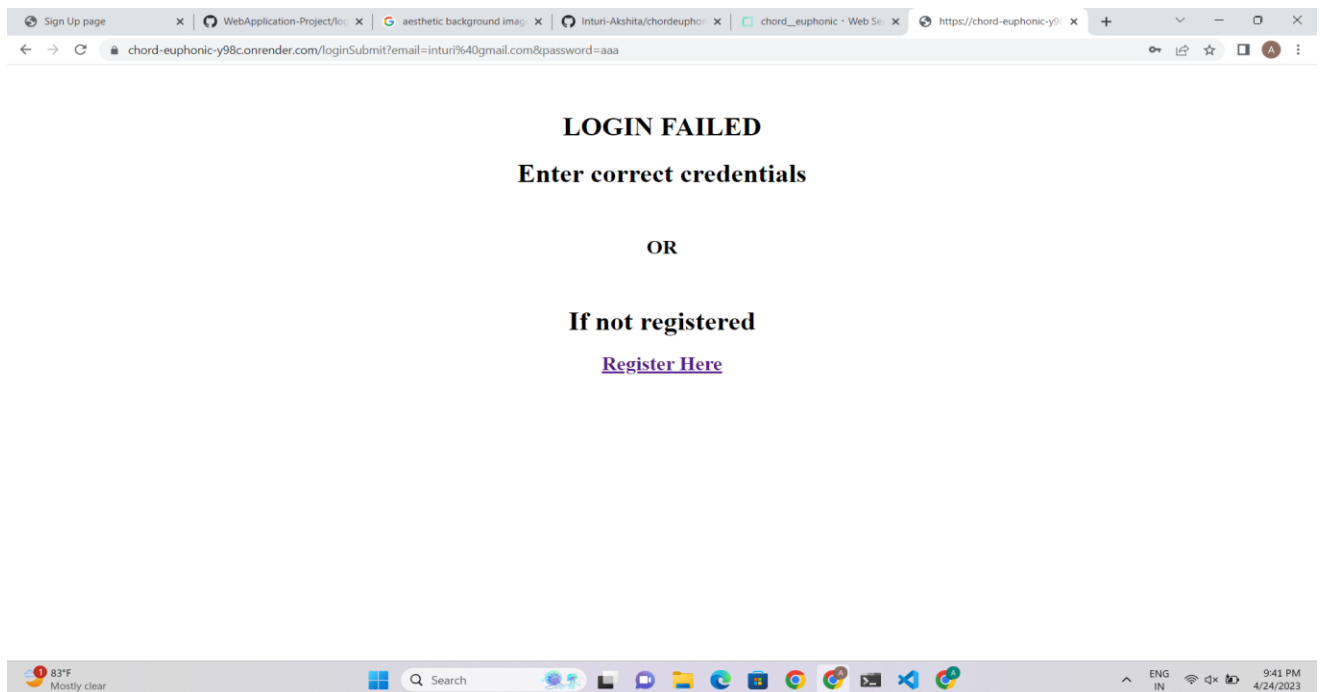

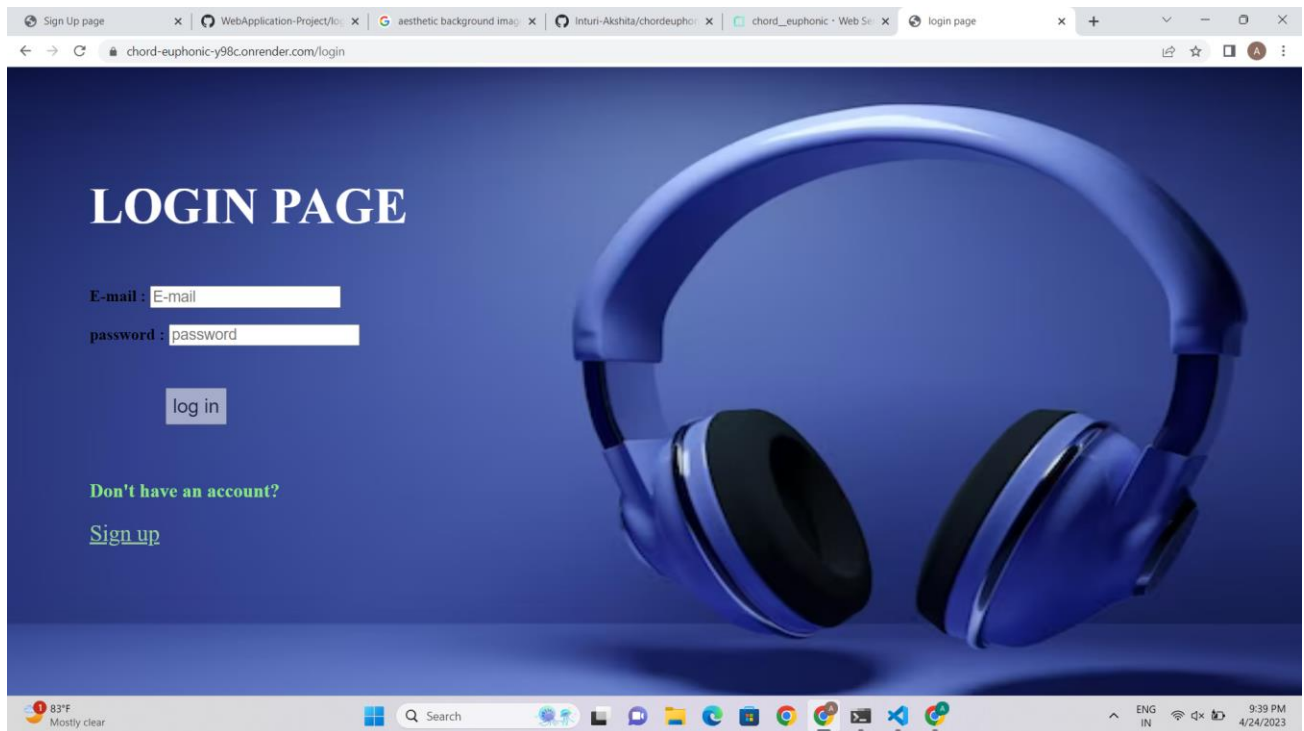

JavaScript(JS)

Cascading Style Sheet(CSS)

SCREENSHOTS:

A screenshot of the 'REGISTRATION PAGE' on the same website. The browser's address bar shows 'chord-euphonic-y98c.onrender.com/signup'. The page has a blue background with a large, faint image of a microphone on the right. The heading 'REGISTRATION PAGE' is at the top in white, bold letters. Below it, the text 'Sign up for free to start listening.' is displayed next to a small icon of a microphone. The registration form consists of several fields: 'Enter Your Email*' with a text input field labeled 'email'; 'Create Password*' with a text input field labeled 'password'; 'Confirm Password*' with a text input field labeled 'password'; 'Enter User name*' with a text input field labeled 'username'; 'Date of Birth' with a date picker showing 'mm/dd/yyyy'; and 'Gender' with radio buttons for 'Female', 'Male', and 'Other'. The Windows taskbar at the bottom shows the system clock as 9:39 PM on 4/24/2023.
